New Colors Added for Ordeve: The Mermaid Line on Sale January 31

Expressing all the refined color of Ash, giving the sense of enriching moisture, the Mermaid Line now adds a total of 16 colors in 2 shades, evolving the lineup to a total 312 colors

Development Background

Fashion trends for spring/summer 2013 have seen the addition of colorful elements to the classical feel of last year's fall/winter, and the Mermaid, a fashion icon symbolizing a **sophisticated sense of color**, has moved into the limelight.

Hair color also follows fashion trends, and we can expect greater popularity for **Ash**, which gives expression to transparency and depth of shine, and imparts a sense of enriching moisture.

Product Features

1. In order to simultaneously achieve the contradictory effects of **transparency** and **depth**, we added an infinitesimal amount of red coloration for an illuminating effect, to give a sense of enriching moisture.
2. In order to achieve an expression of "Moisturizing Ash" for each hair type, the lineup features 2 shades.
 - 1) Mermaid Ash: For hair with strong red coloration—to control red coloration, achieve transparency and depth of shine, and give a sense of enriching moisture.
 - 2) Mermaid Lavender Ash: For hair with strong yellow coloration—to control yellow coloration, achieve transparency and depth of shine, and give a sense of enriching moisture.
