### **ReproCELL Inc. announces business collaboration with Laboratorios Conda, S.A. in Spain**

Yokohama, Kanagawa, Japan –ReproCELL Inc. (ReproCELL, CEO: Chikafumi Yokoyama, Ph.D. JASDAQ: 4978) announced today that ReproCELL has completed a distributorship agreement with Laboratorios Conda, S.A. (Conda, Madrid, Spain, CEO: Alvaro Prieto). Cedarlane will promote ReproCELL's human iPS/ES cell culture reagents and human iPS cell derived functional cells in Kingdom of Spain.

Conda was founded in 1960 as the first Spanish producer of Dehydrated Culture Media for Microbiology and Molecular Biology and is now internationally recognized as one of the leaders in the field and supplies key ingredients for use in research and testing, such as Agars, Peptones and Agaroses, among other products. Also, the company has strong sales force & wide distribution network in Spain. This collaboration will accelerate ReproCELL's presence and sales in Spain.

#### <About ReproCELL, Inc.>

ReproCELL Inc. was established in 2003 with the goal of contributing to people's health and welfare through the development of stem cell technologies by stem cell pioneers, Prof. Norio Nakatsuji from the Institute for Integrated Cell-Material Sciences, Kyoto University, and Prof. Hiromitsu Nakauchi from The Institute of Medical Sciences, The University of Tokyo.

ReproCELL is a world-leading pioneer in commercializing reagents for ES/iPS cells and human pluripotent stem cells as an effective tool for drug discovery and development. The company has successfully launched human iPS cell-derived cardiomyocytes, followed by the launch of human iPS cell-derived neurons, Alzheimer's disease model cells and hepatocytes for drug discovery.
