1. Qualitative Information Regarding Quarterly Results

(1) Qualitative Information Regarding Consolidated Operating Results

Despite gradual recovery in the United States, the global economy during the period of this consolidated cumulative third quarter continued to falter due to the European debt crisis and slowdown in growth in China and other developing countries. The economy in Japan seemed to bottom out towards the end of this period as public investment such as recovery demand etc. from the Great East Japan Earthquake, improvement in housing investment and personal spending etc. increased. However, the Japanese economy continued to remain low due to the continuing strong Yen and staggering overseas economies.

Under such conditions, the Topy Industries Group has formulated and launched a new mid-term consolidated management plan “Growth & Change 2015” with its basic principle being global “Growth” and “Change” to achieve a highly-profitable structure. As one part of such plan, the establishment of TOPY PALINGDA MANUFACTURING INDONESIA (Jawa Barat, Indonesia), a truck wheel manufacturing subsidiary, has been decided in order to respond to the demand increase in the ASEAN region.

Furthermore, the Topy Industries Group has continued its efforts to establish a production structure in response to demand, and to improve productivity and cost performance.

As a result, the Topy Industries Group financial performance marked net sales of ¥171,077 million (year-to-year comparison, 3.5% decrease), operating income of ¥6,296 million (year-to-year comparison, 14.8% decrease), ordinary income of ¥5,601 million (year-to-year comparison, 20.9% increase), and a quarterly net income of ¥3,181 million (year-to-year comparison, 8.8% increase) for this consolidated cumulative third quarter.

【Performance by Segment】

(Steel Business)

The environment surrounding the electric furnace mill industry continued to be extremely difficult due to continued slowdown in demand for civil engineering / construction.

Under such circumstances, the Topy Industries Group has made its best effort to secure sales volume of civil engineering / construction steel. However, decline in sales price due to fall in market conditions and delay in recovery of steel demand for construction machinery undercarriage parts that are supplied to automobiles / industrial machinery components business resulted in net sales of ¥49,955 million (year-to-year comparison, 4.1% decrease), and operating income of ¥1,059 million (year-to-year comparison, 64.9% decrease).

(Automotive & Industrial Machinery Components Business)

In the automobile industry, the domestic production surpassed the previous year due to effective subsidy for ecologically-friendly vehicles etc. On the other hand, despite steady domestic demand with regards to recovery from the Earthquake, the environment for the construction machinery industry was very difficult as demand in China and Southeast Asia remained low.

Under such conditions, the Topy Industries Group construction machinery components were affected by the decline in Chinese and Southeast Asian demand, however, demand for truck wheels were securely acquired and sales were good and steady. Furthermore, all possible improvement plans have been continued. As a result, net sales marked ¥110,821 million (year-to-year comparison, 2.8% decrease), and operating income marked ¥8,009 million (year-to-year comparison, 16.6% increase).

(Others)

The Topy Industries Group also engages in wholesale electricity utility, indoor and outdoor sign systems, manufacture of synthetic mica used in cosmetics etc., manufacture and sales of LED display and crawler robots, civil engineering and construction, real estate lease such as “Topy-Rec Plaza” (Minami-Suna, Kotoku, Tokyo), and operation of sports club “OSSO”.

Net sales resulted at ¥10,301 million, and operating income was ¥598 million.

(2) Qualitative Information Regarding Consolidated Financial Status

Total assets at the end of this third quarter consolidated accounting term marked ¥209,188 million, a decrease of ¥3,639 million from the end of the previous consolidated accounting year. This was mainly due to decrease in cash and deposits by ¥4,555 million, decrease in notes and accounts receivables-trade by ¥7,907 million, and increase in property, plant and equipment by ¥8,696 million etc.

Liabilities ended at ¥123,297 million, a decrease of ¥6,433 million from the end of the previous consolidated accounting year. This was mainly due to decrease in notes and accounts payable-trade by ¥9,733 million, decrease in interest-bearing debt by ¥3,682 million, and increase in accounts-payable included in current liabilities by ¥6,775 million.

Net assets marked ¥85,890 million, an increase of ¥2,794 million from the end of the previous consolidated accounting year. This was mainly due to increase in retained earnings by ¥2,232 million, and an increase in valuation difference on available-for-sale securities by ¥549 million etc.

(3) Qualitative Information Regarding Consolidated Earnings Forecast

With regards to the outlook of the economic environment from here onward, there is hope for recovery of the domestic economy as a result of governmental economical stimulations, and anticipation that the slowdown of the Chinese economy will level out.

However, the European debt crisis etc. still leave the overseas economic and exchange market trends unclear; therefore, the condition continues to require great caution.

Under such management conditions, and in promoting the new mid-term consolidated management plan, “Growth & Change 2015”, the Topy Industries Group will strive to further improve its cooperative value by active business development into overseas markets where growth can be expected, and by solidifying the domestic manufacturing base to establish a business structure strong enough to withstand drastically changing environments. The Topy Industries Group will continue to pursue consecutive profit and seek further progression by exerting its competitive advantage of “integrated manufacture from raw material to product” as defined by the cooperative message “One-piece Cycle”.

The consolidated business performance forecast for the full business year has not been changed from the announcement of September 21st, 2012. All decisions are based on information accessible at the time of issue of this document. Actual business performance and forecast values are subject to change due to various factors.

2. Items Regarding (Other) Summary Information

- (1) Significant Transfer of Subsidiaries During the Period of Consolidation Total for this Quarter.

Not Applicable

- (2) Application of Special Accounting Methods During Preparation of Quarterly Consolidated Financial Statements.

(Calculation of Tax Expense)

Tax expense is calculated by multiplying the third quarter net income before tax with the estimated effective tax rate. The estimated effective tax rate is the rational estimate of tax rate after application of tax effect accounting on current net earnings before tax of the consolidated accounting year including this third quarter consolidated accounting term.

- (3) Changes in Accounting Principles, Changes in Accounting Estimates, and Retrospective Restatements

a. Changes in Accounting Principles that are Difficult to Distinguish from Changes in Accounting Estimates

(Change in Depreciation Method)

Following the amendment of the Corporate Tax Act, Topy Industries and our domestic consolidated subsidiaries have changed the depreciation method in accordance to the revised Corporate Tax Act from the first quarter of this consolidated accounting term for property, plant and equipment acquired after April 1st, 2012.

This will result in an increase of, compared to the previous method, ¥56 million in each of operating income, ordinary income and net income before income taxes and minority interests for this consolidated cumulative third quarter.

b. Changes in Accounting Estimates

(Changes in Depreciable Life)

Topy Industries passed the resolution to enhance the steel making facilities at Toyohashi Factory during the Board of Directors meeting held on March 27th, 2012. Full operation is scheduled to commence in April 2015.

In response to this, the depreciable life of property, plant and equipment expected to be disposed has been reviewed and the depreciation and amortization amount has been hereafter changed to have an expiration date at the end of March, 2015.

This will result in, compared to the previous method, a decrease of ¥269 million in each of operating income, ordinary income and net income before income taxes and minority interests for this consolidated cumulative third quarter.

(4) Additional Information

(Abolition of Retirement Benefits for Directors)

As one step of the review process of the compensation structure for directors, Topy Industries, during the ordinary general meeting of shareholders held on June 28th, 2012, passed the resolution for cutoff payment (the timing of payment shall be at the retirement of the director and auditor) following the abolition of retirement benefits for directors.

In response to this decision, the provision for director's retirement benefits ¥314 million, has been disposed and accounts payable from cutoff payment are displayed as included in "Others" under noncurrent liabilities.

The operating officers of Topy Industries and directors of our consolidated subsidiaries will retain the system of retirement benefits for directors. In preparation to payment of retirement benefit payment to these directors, necessary payment at the end of this third quarter consolidated accounting term based on internal regulations has been accounted for under "Provision for directors' retirement benefits".

3. Summary of Key Events Regarding Assumption of Going Business.
