Breakdown of AUM

(Billions of Yen)

Note: The Group uses the following standards for calculating the balance of AUM.

- AUM includes all real estate properties where the Group performs asset management and other services.
- The balance of AUM is calculated based on the acquisition cost of properties (net of taxes). Costs associated with acquisitions, capital expenditures to enhance property's value and other related items, which are typically included in the book value of properties for accounting purposes, are not included in the calculation of AUM.
- Consolidated Real Estate represents properties that the Group holds itself for a short period of time and provides asset management and other services to. AUM includes properties held by the following REITs who are managed by Kenedix affiliates.
 REITs (sub sponsor): Japan Logistics Fund, Inc., Premier Investment Corporation and AmanahRaya Real Estate Investment Trust.
 REITs (main sponsor): Kenedix Office Investment Corporation, Kenedix Residential Investment Corporation, Kenedix Retail REIT Corporation, Kenedix Private Investment Corporation and Japan Senior Living Investment Corporation
- The balance of AUM may potentially decrease as a result of the Group's activities which include disposition of properties.
