### 1. Qualitative Information on Consolidated Financial Results for the Six-month Period under Review

#### (1) Qualitative Information on Consolidated Business Results

In the six-month period ended September 30, 2017, the global economy generally grew at a moderate pace amid continued gradual recovery in developed economies, particularly the U.S., and a pickup in growth in China and other emerging market economies. Meanwhile, crude oil and other commodity prices which were previously weak, rebounded mildly.

The U.S. economic expansion continued, supported by a robust employment environment. In response, the Federal Reserve continued to raise its policy rate and has started to reduce its asset holdings.

The European economy continued to grow at a moderate pace. Political risk has subsided for the time being in response to the outcomes of recent key elections, most notably the French presidential election.

Emerging economies such as China, Brazil and Russia seemed to regain growth momentum.

The Japanese economy continued to grow at a moderate pace, driven chiefly by external demand while domestic demand held steady, bolstered by continued improvement in employment.

Under the aforementioned business environment, consolidated financial results for the six-month period ended September 30, 2017 are as follows:

	Six-month period ended September 30,		Variance
	2017	2016	
Revenue	3,778,104	3,453,591	324,513
Gross trading profit	312,633	294,772	17,861
Operating profit	52,725	45,360	7,365
Share of profits (losses) of associates and joint ventures	71,350	50,787	20,563
Profit attributable to owners of the parent	104,591	80,517	24,074

## Financial Results

### **Revenue**

Revenue for the six-month period was up 324.5 billion yen (9.4%) year on year to 3,778.1 billion yen, due to the growths of *Food & Consumer Products* and *Chemical & Forest Products* segments' revenues.

### **Gross trading profit**

Gross trading profit increased 17.9 billion yen (6.1%) from the year-earlier period to 312.6 billion yen. By operating segment, profits increased mainly at *Energy & Metals*, and *Transportation & Industrial Machinery*.

### **Operating profit**

Operating profit increased 7.4 billion yen (16.2%) from the year-earlier period to 52.7 billion yen.

### **Share of profits of associates and joint ventures**

Share of profits of associates and joint ventures increased 20.6 billion yen (40.5%) from the year-earlier period to 71.4 billion yen. By operating segment, profits increased mainly in *Energy & Metals*.

### **Profit attributable to owners of the parent**

Profit attributable to owners of the parent for the six-month period ended September 30, 2017 (also referred to as *net profit* for the six-month period under review) increased 24.1 billion yen (29.9%) to 104.6 billion yen relative to the year-earlier period. As of the end of the six-month period under review, progress to yearly forecast for profit attributable to owners of the parent for the fiscal year ending March 31, 2018 of 170.0 billion is 61.5%.

Financial results for each operating segment for the six-month period ended September 30, 2017 are as follows:

### **Food & Consumer Products:**

Gross trading profit decreased 4.3 billion yen (3.2%) year on year to 129.3 billion yen, largely as a result of deterioration in margins on soybean sales to China. Net profit likewise decreased, down 7.2 billion yen (24.6%) year on year to 22.2 billion yen, largely because of reduced profit from an equity-method investment in the real estate development business.

### **Chemical & Forest Products:**

Gross trading profit increased 6.0 billion yen (6.7%) year on year to 96.4 billion yen while net profit grew 0.1 billion yen (0.5%) year on year to 16.7 billion yen, both largely in response to yen depreciation's impact and improved margins at Helena Chemical.

# Marubeni Corporation

## Financial Results

### **Energy & Metals:**

Gross trading profit improved 17.9 billion yen (-%) year on year to 18.7 billion yen, largely in response to improved margins in the LNG field and growth in Australian coal business' gross profit driven primarily by higher coal prices. Additionally, returns from equity-method investments in Chilean copper and Australian coal projects improved which resulted in net loss improvement of 32.6 billion yen (-%) year on year to a net profit of 21.0 billion yen.

### **Power Business & Plant:**

Gross trading profit fell 8.8 billion yen (30.9%) year on year to 19.8 billion yen, largely owing to deconsolidation of a former consolidated subsidiary, now an equity-method associate, in the offshore wind turbine installation services business. Despite increased profit from equity-method investments in offshore oil production services and other projects, net profit decreased 4.3 billion yen (14.9%) year on year to 24.7 billion yen under the weight of a heavier income tax burden.

### **Transportation & Industrial Machinery:**

Gross trading profit grew 8.9 billion yen (20.4%) year on year to 52.7 billion yen while net profit increased 1.6 billion yen (8.6%) year on year to 20.0 billion yen, both boosted by newly consolidated subsidiaries in aerospace, automotive and construction and industrial machinery-related businesses.

*(Note 1)*

*From FYE 3/2018, parts of Food & Consumer Products have been incorporated into Chemical & Forest Products, and parts of Other have been incorporated into Food & Consumer Products. In conjunction with these revisions, operating segment information for the year-earlier has been reclassified.*

*(Note 2)*

*Inter-segment transactions are generally priced in accordance with the prevailing market prices*
